Issue:
You want to know the product key for your Autodesk® 2014 products.

Solution:
Product keys are required for installation of Autodesk products and are used to differentiate products that are both sold independently and as part of a product suite. For example, installing AutoCAD 2014 as a point product requires product key 006F1, but installing AutoCAD 2014 from the Autodesk Product Design Suite Ultimate 2014 requires product key 781F1. The same version of AutoCAD is in both software packages but the product key differentiates one package from the other.

Note: Please ensure you are using the correct product key for the Autodesk product and version you are installing. Entering an incorrect product key will result in activation errors for that product.

The product keys for Autodesk 2014 products are as follows:

Product Name	Product Key
--------------	-------------
